Caveats

1 We generally pay the vet bill directly to the vet.

2 We also require that we may follow up on the status and care and adoption of the animal.

3 We also require that you allow us to include any, all or part of his story and picture in our newsletter. Our newsletter is posted on our web site to give you an idea of what would be in the newsletter about your animal.

4 There is no guarantee you will get any grant money for this application. If you do get grant money, payable to the vet, it may or may not be in the entire amount. The amount of the grant may be limited to \$1,500 at the discretion of the grant committee.

5 If you do receive a grant for an adoptable animal, your organization may also be eligible for an additional grant for another animal in the future
